

How will your work be set during this period of home learning?

At Longridge High School, we have decided that your teachers will be setting work via Synergy and there will be Teams sessions too. This is called Blended Learning. It is believed that Blended Learning is the best way to learn whilst learning from home, as to sit in front of a computer for 5 hours is not good for your health, eyes or well-being.

Therefore, over the next few weeks of home learning you can expect your lessons to be set in the following ways:

- Work set on Synergy to complete independently at home
- Teams sessions with your class teacher – please be aware that at Teams sessions may not last the full hour. It may be as follows:
 1. A 15-minute introduction session that allows pupils to ask questions.
 2. A period of independent working away from the Teams sessions. Teachers will still be available to answer any queries from pupils via Teams using the chat feature.
 3. A 5-minute check-in at the end of the session for any final questions or instructions from the teacher.

The work being set by your class teachers should be taking you around 45 minutes to complete – if you are completing the work much more quickly than this, then we need you to re-visit the work you have completed and check that you have completed it to the necessary standard that is expected.
